Some Board Directors got together and want to answer on the cry for help of the Lebanon. According to our Lebanese friends, the most urgent help is needed by the hospitals which are nearly all damaged or even completely destroyed.

You can, of course, also pay directly on the Swiss account. **Please mention "Lebanon"**

Details :

The needed amounts, according to the controlled invoices, will be sent step by step to the Lebanon.

Two persons will have access to the money : the IW Coordinator Rula Karam and an independent and honest young lady , Marie-Rose Eid, who studied several semesters of law and is now teaching at a private school in Beirut. No money can be taken or bills payed without the signature of **both** ladies.

The IW club Beirut and the coordinator will choose the subject according to the amount of money available and they think is worse while supporting. The coordinator informs the independent person, who will have another look at the subject. If both persons agree, the responsible Board Directors will be informed and give their agreement. This way seems to be complicated but it beware as far as possible of preferential treatments or corruption.

Invoices will only be payed after having controlled the result.

Of course, all countries and districts will be informed about the projects we will have been able to realise.
