Fellow Inner Members.

International Women Day is around the corner. The 8th of March is to celebrate the Woman, as the world largest women organisation. The guiding theme from United Nation is Gender Parity. It is our duty to propagate Gender Parity all our endeavours. We should pamper and push all our children. If we pamper the girls, and not push them, they will not be able to cope in the outside worlds. We should not pushed the boys only, they also need to be pampered. Pampering them is teaching them how to treat the girls rightly in the society. Pushing them is training them to be useful to themselves. Our girls are very strong and given all opportunities they can excel in all fields of endeavour.

Celebrate the day with meaningful programme to tell the story of Inner Wheel as a great humanitarian society. It could be arranging seminars, symposiums, giving lectures in the school for both gender. We should preach gender parity now. Create awareness for equal opportunities, both physically, mentally and emotionally for equal development and challenges to both genders.

As women we are the catalyts in home. Modelling of better generation is our duty and bringing up our children is a task that we must not fail in.

Happy International Women's Day.

Oluyemisi Alatise

IIW President 2016/2017
